Investment strategy

The MySuper investment option gains its exposure to a diversified portfolio of investments through a mix of investment managers.

The MySuper investment option provides a mix of growth and defensive assets which is weighted towards growth-focused assets (e.g. shares), with moderate exposure to defensive assets (e.g. cash).

A mix of passive, factor-based and active investment managers may be selected to manage the assets of the MySuper investment option, providing differing, yet complementary, investment styles to achieve more consistent investment returns.

The MySuper investment option is authorised to utilise approved derivative instruments for risk management purposes and investment efficiency, subject to the specific restriction that the derivative instruments are not used to gear portfolio exposure.

The underlying managers may utilise strategies for the management of currency exposure. It is the strategy of the MySuper investment option that international currency exposure may be hedged.

Quarter highlights as at 30/06/2024

- In the Australian shares portfolio, AllianceBernstein and IOOF QuantPlus were removed, and Alphinity (large cap growth), Martin Currie (dynamic value), OC Funds Management (mid caps) and Antares Equity (large cap core) were added during the quarter.
- The alternative defensive portfolio outperformed, with all Metrics portfolios and the Tanarra Asia Pacific portfolio all outperforming.
- Emerging Markets outperformed, with Intrinsic and Neuberger being the major contributors.
- The alternative growth portfolio outperformed its benchmark with strong performance from Intermediate Capital Group.
- Global shares underperformed, with Vaughan Nelson the major detractor.

Notes to the MySuper investment option profile

- IOOF Balanced Growth invests in an Attribution Managed Investment Trust, therefore accumulated income (if any) will be reflected in the unit price instead of distributing all income.
- The total estimated investment fees and costs includes the management fee, indirect costs, net transaction costs and any performance fees (shown if applicable). These costs are subject to change from time to time and may vary depending on changes to the composition of the underlying assets, changes in exposure to underlying investment managers and where any unusual or non-recurrent expenses are incurred. Please refer to the latest IOOF general reference guide available at www.ioof.com.au for full details on investment fees and costs. Please note the estimated indirect costs, net transaction costs and performance fees are applicable from 19 August 2024.
- Performance is net of management costs and expenses, before superannuation fund administration fees and superannuation tax. Performance is based on exit price to exit price for the period and assumes that all distributions are reinvested. Management costs and other expenses are accounted for in the exit price. Past performance is not a reliable indicator of future performance. Please refer to www.ioof.com.au for updated performance information. Performance data is provided by FE fundinfo (FE fundinfo (Australia) Pty Limited, ABN 18 601 868 311). For further information visit <https://www.fe-fundinfo.com>
- Information shown may include data provided by some investment managers from the prior month.
