We recommend you speak to your financial adviser to assess whether the Trusts are appropriate for your specific investment requirements.

These figures are inclusive of the goods and services tax (GST) and take into account any expected reduced input tax credits (RITCs). There are no contribution or withdrawal fees currently applicable to any of the Trusts. See page 20 of the PDS for full details on fees and other costs.

The 'Management fees and costs' and 'Indirect costs' sections on page 20 of the PDS are replaced with the following:

Management fees and costs

The estimated management fees and costs are fees and costs for investing the Trusts' assets. The management fees and costs don't include performance fees, transaction costs or the buy-sell spread. Management fees and costs are made up of the management fee and indirect costs described below.

Management fee

The management fee (also referred to as an 'investment management fee') is an estimate and includes fees charged by:

- underlying investment managers, and
- the Responsible Entity for managing the assets of the Trusts and overseeing the day to day operations of the Trusts.

The Responsible Entity will pay out of its portion of the management fee any fees and other costs and expenses incurred in operating the Trusts ('operational costs'), such as custody costs, registry costs, auditing fees and tax return fees. However, any unusual or non-recurrent expenses incurred by IISL in relation to the Trusts (such as for unitholder meetings, acquisition and disposal or other dealings with any investments, or abnormal operating expenses) would be directly recoverable from the relevant Trusts as an additional cost to you for administering your investments.

The payment of any fees and other costs and expenses out of the management fee does not extend to the performance fee. This will be a cost to the relevant Trust in addition to the management fee.

The amount of the management fee may be negotiated by wholesale clients.

Indirect costs

The Trusts may also incur costs and expenses that won't be charged as a management fee but are expected to reduce the net return of the Trusts. These indirect costs may be incurred through investment in underlying investment funds. These indirect costs are reflected in the daily unit price and any reporting on the performance of the Trusts.

Indirect cost amounts included in this document are based on actual costs incurred for the financial year to 30 June 2023 and involve estimates where information was unavailable at the date this PDS was issued. Amounts may vary from time to time and you will not be given advance notice of any changes to these amounts. Updated amounts will be available at www.ioof.com.au

The current estimated management fees, estimated indirect costs, estimated net transaction costs, estimated performance fees, total estimated ongoing annual fees and costs and buy-sell spreads for each Trust are detailed below:

- 1 These fees are subject to change from time to time. The actual management cost listed above may vary from the estimated management costs listed in the latest PDS depending on changes to the composition of the Trusts' underlying assets, changes to underlying investment managers and their fees, where any unusual or non-recurring expenses are incurred or any changes to other related expenses.
- 2 These costs are paid from the assets of the Trust as and when they are incurred. This is the estimated percentage by which each Trust's investment return has been reduced by transaction costs.
- 3 Some underlying investment managers may charge performance fees from time to time. Estimated performance fees and total management costs (which include estimated performance fees) are subject to change without prior notice.
- 4 Estimated performance fees are calculated by reference to the average of the last five years' experience to 30 June 2023 where available or for new arrangements, a reasonable estimate for the current financial year has been used, adjusted to reflect a 12 month period.
- 5 The estimated management fees include the investment management fee, which is the fee charged by the Responsible Entity for overseeing and managing the assets of the Trusts, and fees charged by underlying investment managers. All ongoing administration, Responsible Entity fees, underlying investment manager fees and other fees that would normally be payable by the Trust(s) will be paid out of the investment management fee. It excludes transaction costs and other abnormal expenses. The estimated management fees may vary due to changes to the relevant Trust's underlying assets, investment managers and their fees.
- 6 As an investor in the Trusts, you may incur indirect costs which are not charged directly to the Trusts. Indirect costs have the effect of reducing your overall return on investment (where such indirect costs are not otherwise paid out of the management fee, as noted above). These indirect costs may be incurred through investment in underlying unit trusts. Indirect cost amounts included in this document are based on actual costs incurred for the financial year to 30 June 2023 and involve estimates where information was unavailable at the date this document was issued. Amounts may vary from time to time and you may not be given advance notice of any changes to these amounts.
- 7 The estimated net transaction costs in this document are based on actual costs incurred for the financial year to 30 June 2023 and involve estimates where information was unavailable at the date this document was issued and are net of buy-sell spread recovery.

The 'Performance fee example' section on page 21 of the PDS is replaced with the following:

The estimated five year average annualised performance fee for the IOOF MultiMix Balanced Growth Trust is 0.35% pa. If you have invested \$50,000 in this Trust, you may be charged a performance fee of \$175 pa.

The transaction costs table on page 22 of the PDS is replaced with the following:

Trust	Total estimated gross transaction costs (% pa)	Minus buy-sell spread recovery (% pa)	Equals transaction costs (% pa)
IOOF MultiMix Capital Stable Trust	0.10	0.04	0.06
IOOF MultiMix Conservative Trust	0.12	0.03	0.09
IOOF MultiMix Moderate Trust	0.15	0.06	0.09
IOOF MultiMix Balanced Growth Trust	0.16	0.05	0.11
IOOF MultiMix Growth Trust	0.20	0.07	0.13
IOOF MultiMix Cash Enhanced Trust	0.03	0.03	0.00
IOOF MultiMix Diversified Fixed Interest Trust	0.08	0.05	0.03
IOOF MultiMix Australian Shares Trust	0.15	0.06	0.09
IOOF MultiMix International Shares Trust	0.32	0.13	0.19

You can determine the dollar value of these costs by multiplying the transaction costs rate with your average account balance.

For example, the transaction costs on an average balance of \$50,000 in the IOOF MultiMix Balanced Growth Trust, is estimated at \$55 pa (i.e. \$50,000 x 0.11% pa), however it is important to note that such costs for future years may differ. This cost is an additional cost to the investor when it has not already been recovered by the buy-sell spread charged by the Responsible Entity.

The example of annual fees and costs for a balanced investment option on page 23 of the PDS is replaced with the following:

Example – IOOF MultiMix Balanced Growth Trust	Balance of \$50,000 with total contributions of \$5,000 during the year	
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0.
PLUS Management fees and costs		And , for every \$50,000 you have in the IOOF MultiMix Balanced Growth Fund you will be charged or have deducted from your investment \$460 each year
Management fee	0.84% pa	
Indirect costs	0.08% pa	
Total	0.92% pa	
PLUS Performance fees	0.35% pa	And , you will be charged or have deducted from your investment \$175 in performance fees
PLUS Transaction costs	0.11% pa	And , you will be charged or have deducted from your investment \$55 in transaction costs
Equals cost of IOOF MultiMix Balanced Growth Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional 5,000 during that year, you would be charged: \$690* What it costs you will depend on the fees you negotiate.

* Additional fees may apply:

Establishment fee \$0

And, if you leave the managed investment scheme early, you may also be charged exit fees of 0% of your total account balance (\$0 for every \$50,000 you withdraw). This example assumes the \$5,000 contribution occurred at the end of the first year, therefore it does not include the management fees and costs on the additional \$5,000 invested, nor any market movement on the total amount invested. You may also be charged a buy-sell spread whenever you make an investment, withdrawal or investment switch. The estimated sell spread applied to withdrawals from the Trust is currently 0.10% (this will equal \$5 for every \$5,000 you withdraw).

The cost of product table on page 23 of the PDS is replaced with the following:

Trust	Cost of product
IOOF MultiMix Capital Stable Trust	\$310
IOOF MultiMix Conservative Trust	\$465
IOOF MultiMix Moderate Trust	\$525
IOOF MultiMix Balanced Growth Trust	\$690
IOOF MultiMix Growth Trust	\$730
IOOF MultiMix Cash Enhanced Trust	\$180
IOOF MultiMix Diversified Fixed Interest Trust	\$295
IOOF MultiMix Australian Shares Trust	\$660
IOOF MultiMix International Shares Trust	\$550
